7. Develop a dashboard prototype in Figma displaying performance criteria for a cellular system.

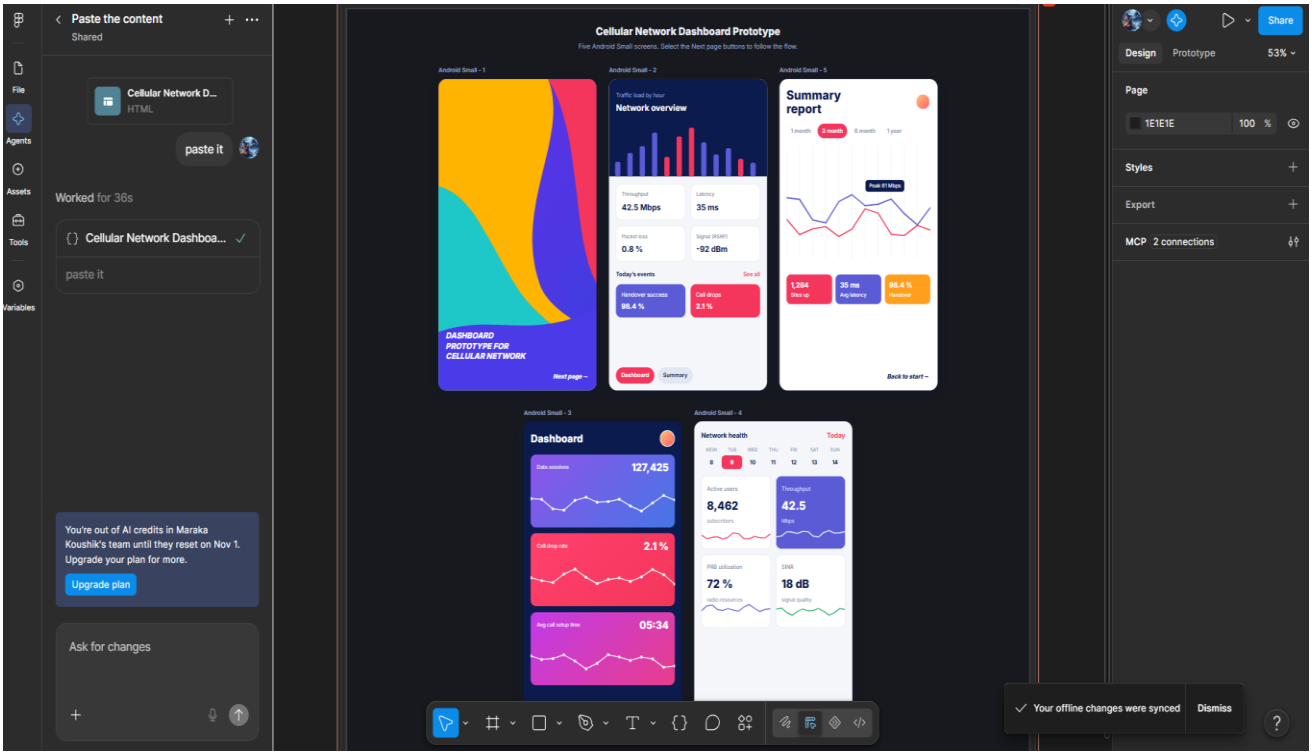

Aim: -

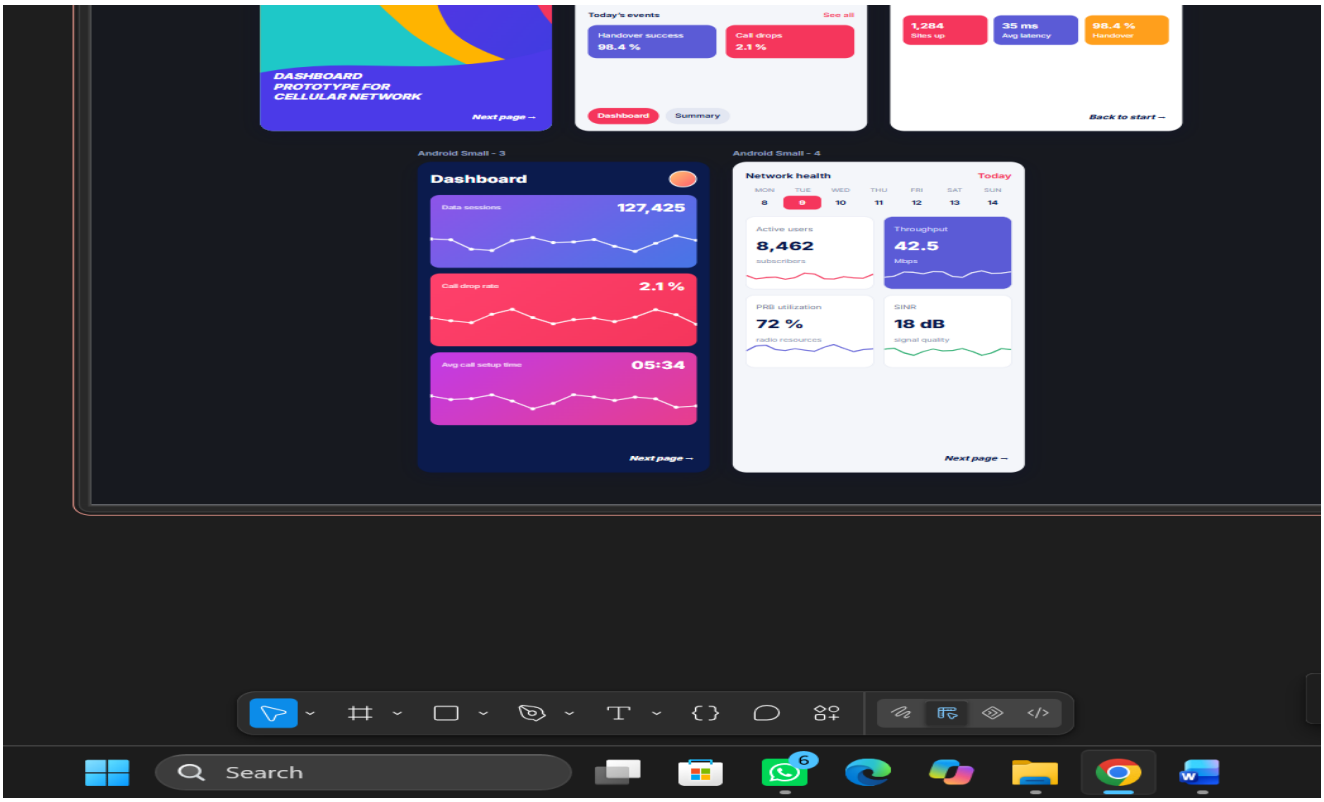

To develop a dashboard prototype in Figma displaying performance criteria for a cellular system.

Procedure: -

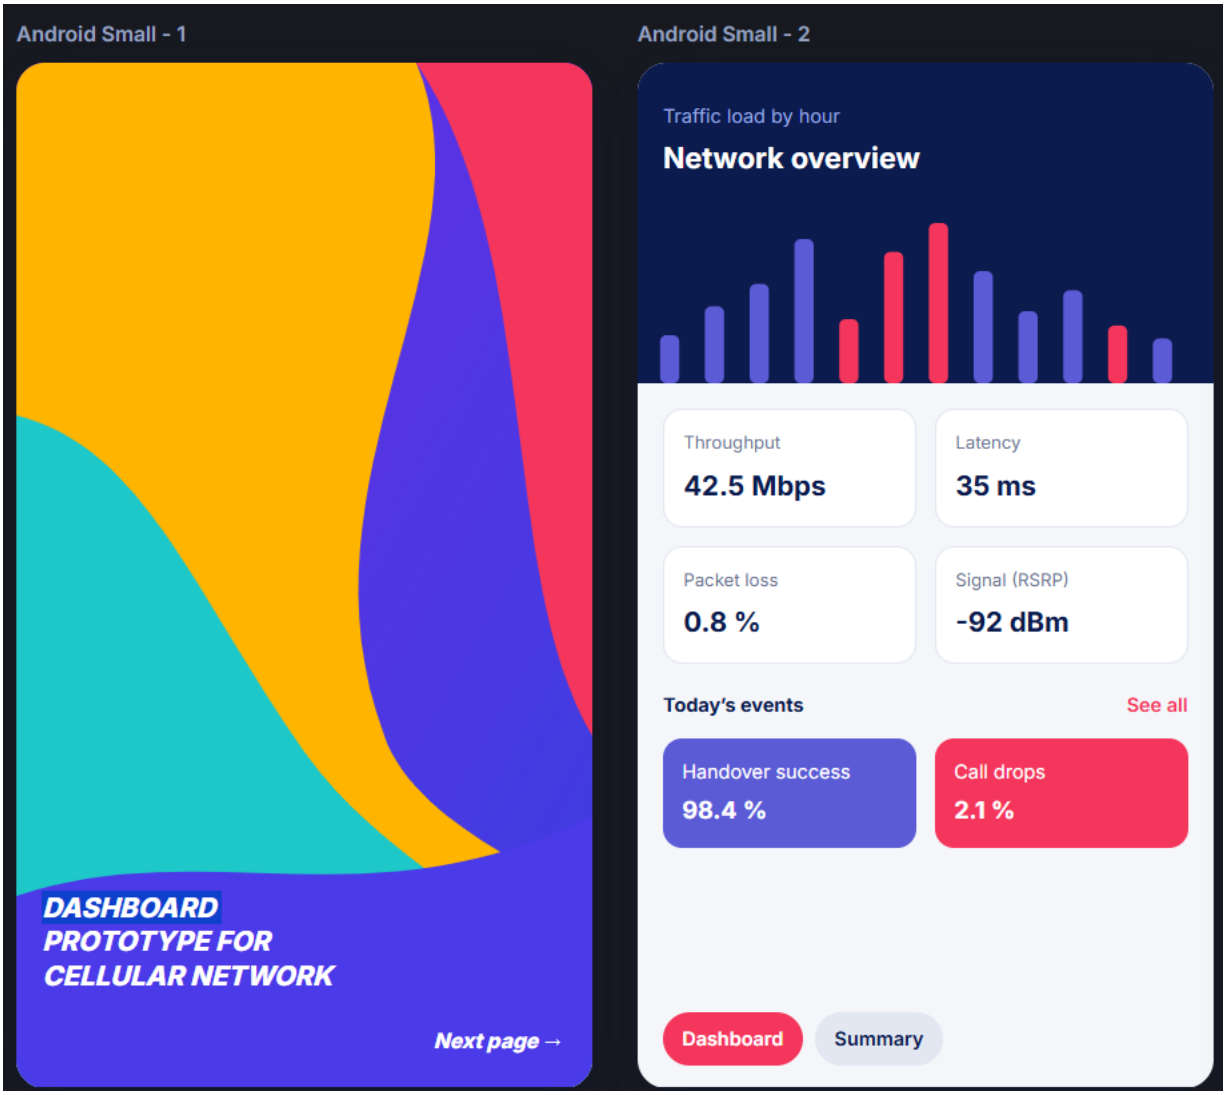

1. open Figma
2. Create a new file
3. Select the Frames
4. Design Visual Elements
5. Make it Interactive
6. Add icons on the Frame
7. Incorporate Multimedia
8. Storyboard Animation
9. Review and edit the Prototype
10. Save and Share
